

3.3.1 Average number of outreach activities organized by the institution during the last five years

This report outlines the average number of outreach activities organized by BLDEA's JSS College of Education, Vijayapur, over the last five years, as per the changes made by the DVV during the NAAC assessment process. The college's academic year runs from January to December.

Upon the review of supporting documents shared by the Higher Education Institution (HEI), the DVV has revised the reported data on outreach activities. The revision specifically excludes certain events, such as celebratory activities (Yoga Day, Tree Plantation, etc.), which were previously considered in the original data set. This change was made to ensure that only structured, meaningful outreach programs are counted, providing a more accurate and relevant reflection of the institution's community engagement.

The college has organized a wide range of outreach initiatives over the past five years, focusing on social responsibility, environmental sustainability, and educational empowerment.

Notable activities include community awareness programs, teaching workshops for local schools, and health camps. These activities were designed to support the surrounding communities and align with the institution's vision of holistic education.

The revised data, in line with the recommendations from DVV, presents a clearer picture of the college's genuine outreach efforts, excluding non-structured events. The college remains committed to fostering social responsibility and extending its academic and community outreach initiatives beyond the campus.

This data demonstrates the consistent engagement of the institution with the surrounding communities, reflecting the college's dedication to impactful, sustainable outreach. Kindly Consider the date and programmes in Outreach activities. All the documents related to Outreach activities are already in DVV.

Obtained Score=2

Expected Score=4

Year wise Outreach
